

Viaxes *e* *educativos*
e *Solidarios*

The idea

When the students plans a trip, we have lots of information of mass tourism (Salou, Benidorm, Terra Mítica), also great deals, but we have not a joint offer of alternative tourism destinations (solidarity, ecotourism, agrotourism, exchanges ...)

As we detect this need, we decided to create this network in Armeria cooperative nonprofit

Network horizontal solidarity trips

A group of teachers, students, and travel promoters, believe that travel is an essential part of education, an irreplaceable way to meet other people, other cultures and environments

We realize that if we don't organize this educational activity, increase cultural and educational barriers among youth

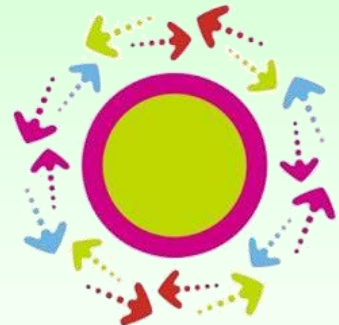

We therefore propose this project which combines solidarity trips, ethical banking (solidarity funds), environmental workshops, exchanges and solidarity of all and for all

Who are we?

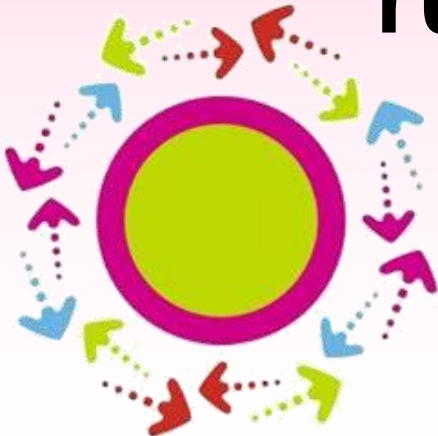

We start with:

- **Teachers from over 20 schools**
- **6 destinations for rural tourism in Spain**
- **3 Entities Responsible Tourism Forum**
- **The Social Market in Spain**
- **"Ecotur" Ecotourism portal**
- **"AES Briante"**
- **Cooperative Armeria in constitution**

What do we want?

**Present the project and invite
schools, tourism companies,
travel ONGDs alternative
networks as "social market" or
rural tourism portals**

What do we do?

Create an alternative to travel and meet other people. Gradually disposing of a national - and international low cost alternative destinations

Strengthen alternative tourism projects, cooperative or family, local enterprises environmental education and / or solidary

Specific objectives

Create a network of travel destinations serving schools in other localities to ensure activities in line with the principles of development and human rights education, and environmental education

Methodology

The project: solidarity trips, is opened and participatory, "A common good." - As free software

It will always be available to all companies, groups, organizations and individuals involved, who will become developers, as they are today (AES Briante, " group solidarity of IES Terra Trasancos ", travel group cooperative nonprofit Armeria

Tourism destinations with:

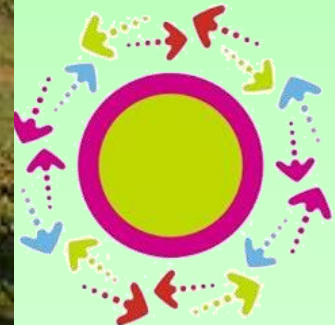

**A natural -cultural environment attractive
to organize routes**

**A residence with sites for the
implementation of workshops:
development and human rights
education conviviality, activities for
environmental education**
